

# EDITOR PROOF

## Effective Editing

A one-day workshop to sharpen your editing and proofreading skills  
26 February, 9 April or 17 October 2019 (09.00 – 17.00)

**T**oday's editors must do much more than correct misspellings and grammar. An effective editor must also know how much editing is needed. Expert editing is all about successful communication while maintaining your clients' good reputation and your own as an editor or writer.

This one-day workshop will clarify where an editor's responsibility begins and ends, and will offer tips on how to maintain good relations with authors. You will learn how to enhance others' writing and how to effectively edit your own.

In addition to interpersonal skills, the workshop will teach:

- What to edit and what to leave alone
- How to efficiently rid texts of officialese and the obscure
- How to clarify without changing the meaning

The workshop will take place at the offices of EditOr Proof:

Carrefour de Rive 2, second floor  
1207 Geneva

The workshop includes lunch and coffee, and feedback on up to three pages of editorial notes addressed to authors or clients within one month of the workshop. The workshop is limited to 12 participants.

The cost of the workshop is CHF 380 (VAT incl.)
